## EDUCATION

### EDIT – Disruptive Digital Education

#### FRONT-END ENGINEER Program

March - November 2025

Tech stack: HTML, CSS, Sass, JavaScript, TypeScript, React

## TECH SKILLS

### Front-End:

React, TypeScript, JavaScript (ES6+), HTML5, CSS3, Sass

### Tools & Workflow:

Git, GitHub, npm/yarn, Figma

### Concepts:

REST APIs, Accessibility (a11y), Component Architecture

## LANGUAGES

Portuguese (C2)

English (B2)

German (A2)

French (A2)

# Gonçalo Marques

## PROFILE

Front-End Developer with hands-on experience building responsive web applications using React and TypeScript. Strong foundation in HTML5, CSS3, Sass, and modern JavaScript (ES6+), with a focus on clean, maintainable code and component-based architectures. Interested in creating intuitive, accessible user interfaces and continuously improving technical skills.

## EXPERIENCE

### Junior Front-End Developer- Internship

IPTNicolau - May 2025 - June 2025

- Developed responsive user interface components using React, HTML, CSS, and JavaScript, following a component-based architecture.
- Improved code structure and maintainability through reusable components and consistent naming conventions.
- Collaborated with team members through code reviews and version control using Git, following best practices.
- Optimized UI performance and ensured cross-browser compatibility.
- Participated in documentation tasks and Agile-style workflows, gaining experience in collaborative development environments

## PROJECTS

### E-Commerce Web App

React · TypeScript (ou JavaScript) · API · State Management

Designed and developed a scalable e-commerce frontend application with a strong focus on reusable components, client-side state management, and user experience. Implemented dynamic product listing, category filtering, search functionality, and shopping cart logic. Managed asynchronous API data, including loading and error states, and built a fully responsive interface.

### Movie Database Web App

React · API Integration · React Router · UI/UX

Built a movie database application consuming a third-party API, enabling users to search and explore movies through dynamic routes. Implemented client-side routing, data fetching, and navigation flows using modern React patterns, with a focus on clean UI, usability, and performance.

### Personal Portfolio

React · Vite · CSS Modules

Developed a personal portfolio website to showcase projects and technical skills, focusing on performance, responsiveness, and maintainable CSS architecture. Used modern tooling to ensure fast load times and a clean, professional presentation.
